EDUCATION

Stanford University, Stanford, CA

Ph.D. in Psychology (in progress: September 2013 – present)

Advisors: Ellen M. Markman, Ph.D., & Carol S. Dweck, Ph.D.

Area of specialization: Developmental psychology

Yale University, New Haven, CT

Bachelor of Arts, *magna cum laude*, with distinction in Cognitive Science (May 2009)

Cognitive Science Major: selective, self-designed major focusing on the concept of the self, with courses in psychology, philosophy, neuroscience, and linguistics

Directed Studies: selective 1-year program in Western literature, history, and philosophy

RESEARCH INTERESTS

I am interested in social cognitive development and intuitive philosophy of mind, specifically children's and adult's understanding of mental life, sentience, consciousness, and personhood. Most of my work examines social reasoning through behavioral studies with children and adults. I am also interested in examining the cultural forces that shape children's developing sense of what it means to be a person. More broadly, I am interested in drawing connections between developmental, cognitive, social, and cultural psychology, as well as philosophy.
