ACADEMIC APPOINTMENTS

University of California, Riverside, Department of Psychology

Postdoctoral project director for the Developing Belief Network (September 2020 – present)

Parental leave: December 2022 – April 2023

PIs: Rebekah A. Richert (University of California, Riverside)
Kathleen H. Corriveau (Boston University)

Stanford University, Department of Anthropology

Postdoctoral researcher (September 2019 – December 2020)

Ad hoc consultant re: experimental design, statistical analysis (December 2020 – present)

PI: Tanya Marie Luhmann

EDUCATION

Stanford University, Department of Psychology

Ph.D. in Psychology, specializing in developmental psychology (September 2019)

Parental leave: June 2019 – September 2019

Thesis: *The Development of Conceptual Representations of Mental Life*

Dissertation committee: Ellen M. Markman (advisor), Carol S. Dweck (advisor),
Hyowon Gweon, Michael C. Frank, James L. McClelland,
Mark Algee-Hewitt (external chair)

Yale University

B.A., *magna cum laude*, with distinction in Cognitive Science (May 2009)

RESEARCH INTERESTS

I study intuitive theories and conceptual change, with a focus on “folk philosophy of mind”—how children and adults come to understand things like mental life, personhood, and the relationship between mind and body. I am particularly interested in the ways in which such conceptual representations vary (or do not vary) across development, across cultural and religious settings, and across individuals; and in the ways in which these representations shape people’s behaviors and even their most personal relationships and phenomenal experiences. My work is grounded in cognitive and developmental psychology, but it is multidisciplinary at heart: I integrate advances in statistical modeling and computational cognitive science with ideas from cultural and social psychology, anthropology, and philosophy to study how sociocultural and developmental processes converge to shape people’s understanding of themselves and the world.
